

Restaurant Dundee's

Client: DUNDEE'S SEAFOOD RESTAURANT

Location: MARINE PARADE, HARBOUR LIGHTS COMPLEX

Scope:

The Cairns icon Dundee's Restaurant moved from Spence Street to the Harbour Lights building.

Phillip Osborne is proud to have been involved in this project as the builder carrying out the complete fit-out.

We coordinated and constructed the new kitchen, dining and bar areas, plumbing, electrical, fire services, joinery, stainless steel benches and exhaust canopies, transforming an empty space into a tasteful restaurant for all to enjoy. The restaurant is unique with its striking feature timber ceilings and the use of timber and marble on the bar.
