

Gordonvale Library

Client: Cairns Regional Council

Location: 88 Norman Street, Gordonvale

Scope:

This project was a complete refurbishment of the Gordonvale Library, including the removal of asbestos and extensive internal demolition, a new Children's area, Meeting Room, Collections/Reading Room, Councillor's office and PWD and Staff bathrooms.

We aimed to create a bright, relaxing environment for all ages to enjoy. We achieved this by incorporating large, printed wallpapers, vinyl graphics and laminate panelling. To improve on the functionality of these spaces, we also included wall-mounted pin boards to the Children's area, customer services, entry and meeting room, as well as a magnetic glass whiteboard for the meeting room. We also created a new After-Hours Book Return and Customer Service desk, using clean, white laminate surfaces to tie in with the modern, bright spaces that were created.

Our external works included the removal and reinstallation of existing solar panels, new rendered brickwork and a complete external repaint.
